Shaping Up

Read each description. Then draw the sets of shapes that are being described.

1. **Group A**
   
   There are 4 shapes in Group A. All of the shapes have between 3 and 5 sides and are not regular. Inside each shape there is one acute angle.

2. **Group B**
   
   There are 3 shapes in Group B. All of the shapes have between 6 and 9 sides. There is a regular polygon inside of each shape.
